

# Godrej security solutions targets home segment

The security solutions division of Godrej & Boyce is targeting the home segment to increase the vertical's turnover in the next three years, a top official said on Wednesday. The turnover of the security solutions division of the company was the third largest which was ₹7.5 billion at the moment, Mehernosh Pithawalla, VP and global head (marketing, sales and innovation) of the security solutions division said. Pithawalla said the banking security business was not growing as the expansion of bank branches was not there now like before.
